# MIX SPECTRUMS FOR BIGGER YIELDS AND HIGHER QUALITY

**CONTINUOUS UV, PAR, AND FAR RED OUTPUT**

Blue-rich spectrum enhanced with continuous UV-A and far-red to drive the production of terpenes and essential oils.

**PPF 1865  $\mu\text{mol/s}$**

Orange / red dominant spectrum drives incredible levels of biomass. Complement with 1000W DE-CMH for the ideal indoor mixed spectrum.
